

Compact“C”Series

C15

Medium format fiber laser cutting machine

CE European Standard

Smart flat-panel cutting equipment specially designed for European and American customers.

Small, beautiful, precise, professional and strong!

Technical Parameters

- Processing format: 1500mm*1000mm
- Laser power: 1500W~3000W
- Positioning accuracy: 0.05mm
- Repositioning accuracy: 0.03mm
- Maximum positioning speed: 60m/min
- Maximum acceleration: 1.0g

Applicable Materials

Stainless steel , mild steel , galvanized steel , aluminum ,brass and other metal materials.

01

HYP CUT8000 bus control software, New Touch Screen, support MESS, perfect realization of Industry 4.0.

02

The sliding plug door design is the same as that of high-speed trains, which has high sealing performance and does not take up space.

03

Funnel feeding reduces laser radiation, away from the light source.

04

With bilateral ventilation, dust removal effect is more refined.
